Describe your Drinking Water System
A water system serving West Lambton Shores, receiving treated water from the Lambton Area Water Supply System. Consisting of a control chamber located at the Town Line in the vicinity of Lakeshore Road and Townsend Line, controlled by the level of the elevated storage tank having an available storage volume of 3,800 m3, equipped with a system controlling all levels and functions through the SCADA system located at the Lambton Area Water Plant.  The Municipality of Lambton Shores has undertaken an upgrade to the entire water system to allow the people of the Municipality to have safe drinking water.  An online chlorine analyzer is installed to continuously monitor the residual in the distribution system. This information can be viewed on the SCADA system located at the Forest WPCP.
